WC-1HPMF-OSC	52" tall, oscillating, manual fill , 24 gallon	1 hp, 115 v.	40 mph at discharge	195 lbs.

Optional: Automatic shut-off kit installed or retrofit kit after purchase.
 Pneumatic wheels available installed or retrofit kit.

Oscillating WayCool

You can purchase our WayCool evaporative cooler with an oscillating spout. With an arc of 110°, the oscillating WayCool distributes cool air to an even larger area.

Other coolers require you to move the entire unit to change the direction of the air flow.

Approximate air velocity in feet per minute from WayCool

1 HP WayCool oscillating model

Distance from unit	Feet per minute
10 feet	1730
20 feet	990
30 feet	710
40 feet	560
50 feet	430
60 feet	350
70 feet	270
80 feet	160

The oscillating WayCool has a patent pending.
